# Thinking of you

At Electrolux we're thinking of our customers when we develop new consumables and accessories. Through thousands of in-depth home observations, surveys and focus groups all over the world we continuously strive to understand our customers' needs in depth within cleaning, cooking, and washing.

We do this to be able to focus our product development on innovations and design that really cater to consumer needs and solve consumer problems. With every product we make, we want to be able to say: 'We were thinking of you when we developed this product.'

The smart bag  
that simplifies life.

## s-bag® the standard bag!

Tired of having to remember the model of your cleaner or memorizing complicated bag references? Today thanks to our unique s-bag® system, one bag fits all – on all our latest vacuum cleaners. All you have to remember when buying a new bag is s-bag®!

### How will the s-bag® improve the performance of your cleaner?

s-bag® optimizes the vacuum cleaners performance and lifetime by offering real product innovation and original manufacturer quality.

### Why is s-bag® the best choice?

In order to make our s-bag® more resistant and better fitting in our cleaners, we have introduced an innovative folding on the synthetic bags.

Compared to a flat synthetic bag:

- It is easier to fit in the cleaner and more flexible
- It enables better dust pick up
- It has a more durable construction

### Why is it important to always use an original s-bag®?

The original s-bag® ensures that your vacuum cleaner will always perform at its best, thus avoiding any premature damage to the motor and problems linked to the guarantee.

s-bag®, probably the most sold dust bag in the world!

For more information visit [www.s-bag.com](http://www.s-bag.com)

## s-bag® classic: The original standard bag!

s-bag® classic is a high quality paper bag which filters out more than 95% of dust and particles, making it more effective than an ordinary paper bag. Thanks to its special folding and to its unique patented cardboard, it's easy to fit in the cleaner. The closing system makes the removal of the bag clean and hygienic, preventing any spillage. (Not recommended for UltraOne)

**E 200: 5 s-bag® classic in a polybag** **Part Number: 9000844804**

**E 200B: 5 s-bag® classic in a box** **Part Number: 9000844812**

s-bag® classic

## s-bag® classic long performance: Up to 50% longer life!

s-bag® classic long performance is a synthetic bag with innovative folding which lasts up to 50% longer than a traditional paper bag. When a traditional bag is over half full, your cleaning efficiency will soon be reduced. Not so with our generation of synthetic dust bags. This bag is specially designed to provide long-lasting vacuum cleaning performance up to the moment the dust bag is full and ready for disposal. s-bag® classic long performance is TÜV certified.

**E 201: 4 s-bag® classic long performance in a polybag** **Part Number: 9002560572**

**E 201B: 4 s-bag® classic long performance in a box** **Part Number: 9002560598**

s-bag® classic long performance

## s-bag® GREEN: 100% natural from renewable sources, 100% performance!

s-bag® GREEN is biodegradable made of corn starch, natural rubber and recycled cardboard. s-bag® GREEN ensures superior performance from the vacuum cleaner, while the environmental impact is significantly reduced and much smaller than that of a usual dust bag. 42% less non renewable energy is being used in the production of the s-bag® GREEN and the amount of greenhouse gases generated is 32% lower. The GREEN range contains of a Starter Kit GREEN, a Single Pack GREEN, the s-filter® GREEN and the s-fresh™ GREEN. s-bag® GREEN is TÜV certified.

**E 212B: 3 s-bag® GREEN** **Part Number: 9001664557**

s-bag® GREEN

## s-bag® anti-odour: Ideal for pet owners!

s-bag® anti-odour is a unique dust bag that effectively neutralises unpleasant smells that develop inside the vacuum cleaner. If you own a pet, you will appreciate this unique smell-buster. In addition to the synthetic material, which does not absorb moisture as paper does, it contains an odour absorbing agent in the form of a wax sprayed on the entire surface of the s-bag® anti-odour. This agent absorbs the unpleasant smell and prevents it from escaping the bag.

**E 203: 4 s-bag® anti-odour in a polybag** **Part Number: 9001660076**

**E 203B: 4 s-bag® anti-odour in a box** **Part Number: 9001660068**

s-bag® anti-odour

## s-bag® hygiene anti-allergy: Ideal for allergy sufferers!

s-bag® hygiene anti-allergy is the top filtration dust bag from Electrolux, ideal for allergy sufferers. The bag is high grade synthetic, providing a filtration level at hygiene E10, capturing and filtering small dust particles, pollen, dust mites, mite allergens, and cat allergens as small as 1 micron (that is 15 times smaller than the diameter of a human hair). Although the filtration capacity is improved the clogging performance is maintained, thanks to the fine fibre distribution in the material. The s-bag® hygiene anti-allergy has been awarded with the ECARF seal of quality and is TÜV certified.

**E 206: 4 s-bag® hygiene anti-allergy in a polybag** **Part Number: 9001660340**

**E 206B: 4 s-bag® hygiene anti-allergy in a box** **Part Number: 9001660357**

s-bag® hygiene anti-allergy

## s-bag® ultra long performance: Top cleaning results!

s-bag® ultra long performance is a new high performance synthetic dust bag providing your cleaner with extreme suction power during the entire lifetime of the bag. With its optimal capacity of 5 litres, amazingly this dust bag can be used up to 80 % longer than a normal paper dust bag. Thanks to excellent filtration in the multi-layer material even the very finest dust will be captured and you will have clean air in your home. Choose s-bag® ultra long performance for optimum cleaning performance from your vacuum cleaner.

## s-fresh™: The scent of truly clean and fresh home!

The s-fresh™ is scented granules designed to be used together with your vacuum cleaner, regardless of brand or size. It is easy to use: simply open the bag, roll out the small granules on the floor and vacuum them up. Once lodged in the dust bag, they spread a delicate but distinctly clean scent throughout your home every time you vacuum. s-fresh™, available in blossom, lemon and pine scent, leaves a gentle perfume making the home smell clean and fresh.

s-fresh™

Change filters  
regularly for  
a healthy home

## Breathe healthier air and make your home cleaner than ever!

Do you know that the air in your home is polluted? Air pollution increases the occurrence of asthma attacks, bronchitis, heart attacks and other chronic pulmonary and cardiovascular diseases. It's therefore important to minimise particle release.

### For a healthier home

Particles vacuumed by your cleaner are efficiently filtered and retained by the filter. Maintaining a dust-free environment will enable everyone in your family to breathe easier and feel better. This is especially important for people who already have allergy problems, and it will prevent others from getting them. Clean air is an important step towards a healthier life for the whole family.

The hygiene filter E12 can capture harmful particles like pollen, mould spores, dust mite faeces and allergens. By purifying the air leaving the vacuum cleaner, it reduces the risk of allergic reactions.

The HEPA 13 filter has the highest level of filtration offered in the Electrolux range. A HEPA 13 filter captures even smaller particles than hygiene filter E12.

### A brief comparison between different levels of filtration

Imagine that 10.000 small particles (cigarette smoke size) are vacuumed

- For E12 only 50 particles are allowed to penetrate the filter
- For HEPA 13 only 5 particles are allowed to penetrate the filter

### What is a HEPA filter?

HEPA filter stands for High Efficiency Particulate Air, which today is widely used by producers of microchips, NASA and surgery theatres in hospitals. Electrolux HEPA filters capture small particle sizes very well. They are made of tightly structured very thin glass fibres, which improve the filtration mechanism especially for small particles.

### s-filter® H13 washable - a standard HEPA 13 filter for Electrolux vacuum cleaners

Electrolux s-filter® is a HEPA 13 filter that filters small particle sizes extremely well. The filter media is made of tightly structured, very thin glass fibres, which boosts the filtration mechanism especially for small particles. Clean your s-filter® under lukewarm water, do not use any detergent or touch the filter surface. After rinsing let it dry for at least 120 min. s-filter® - easy to remember!

### Electrolux offers 2 levels of filtration:

## Top performance nozzles

### Boost the performance of your vacuum cleaner!

According to your needs, you will find a wide range of nozzles going from the basic hard floor nozzle right up to the slimmest nozzle on the market. Most of the Electrolux nozzles are designed to fit the majority of Electrolux cleaners whose tube diameter is 32, 35 or oval 36mm, equipped with a parking clip.

### SpeedyClean™

Ø 32/35 mm (adapter)

#### Innovative nozzle for hard and soft floors!

The most flexible, slimmest nozzle on the market and it is based on unique patented technology. It perfectly cleans both hard and soft floors with no need to reset between surfaces. SpeedyClean™ is extremely easy to manoeuvre and because it is as low as a golf ball – only 44mm – it reaches under very low furniture.

Reference: ZE 065 Part Number: 9001661421

### DustMagnet™

Ø 32/35 mm (adapter)

#### Great for hard floors & carpets!

Nozzle designed with an adjustable brush to perform on all surfaces. The brush function helps you to clean deep down in floor crevices and to refresh and comb the carpet. The nozzle has a combined front and side suction for visibly efficient cleaning.

Reference: ZE 062 Part Number: 9002567254

### TurboBrush

Ø 32/35 mm (adapter)

#### For even cleaner carpets!

The rotating brush on the Turbo Brush is specially designed to remove even the most deeply embedded dirt. Extremely powerful turbine driven and clever brushes that reach deep into the carpet. It achieves a gentle brushing action that does not destroy your rug.

Reference: ZE 013.1 Part Number: 9001661314

### SilentParketto

Ø 32/35 mm (adapter)

#### The perfect brush for hard floors!

Extra soft and silent – made from 100% natural hair for gentle cleaning of hard floors. This nozzle is designed to perform on all surfaces with no adjustments needed. It is extra wide for maximum performance.

Reference: ZE 061.1 Part Number: 9001661322

## Combi Brush

Ø 32/35 mm (adapter)

### A two-in-one top brush!

Its 2 positions make it adaptable and help you to clean both hard floors and carpets. It comes equipped with 2 extra plush plates for efficient picking-up of hairs and fibres. This completely removable nozzle is easy to clean.

Reference: ZE 018

Part Number: 9001955005

## Top Floor Nozzle with wheels

Ø 32/35 mm (adapter)

### A combination nozzle with metallic plates.

A combination nozzle optimised for both hard floors and carpets thanks to its pedal. The brush position protects delicate floors from scratching and ensure also deep cleaning on wooden floors. Two plush plates makes it easier to pick up hair. High quality nozzle with metallic plates and wheels.

Reference: ZE 010

Part Number: 9000846783

## Basic Floor Nozzle with wheels

Ø 32/35 mm (adapter)

### A combination nozzle with plastic plates.

Optimised nozzle with pedal, for both hard floors and carpets. Two plush plates and air intake over the entire nozzle ensure maximum intake.

Reference: ZE 011

Part Number: 9000846791

## Small combination nozzles

The small combination nozzles are the perfect accessories for cleaning a wide variety of small surfaces, from bookshelves to sofas, or for hard-to-reach areas, or to remove pet hair. All Electrolux original nozzles are equipped with a parking clip. This allows you to rest your cleaner in convenient and comfortable position during cleaning. Additionally the parking clip enables compact storage of the cleaner.

### 3-in-1 multi tool

Ø 32/35 mm (adapter)

#### With multi function!

With amazingly three functions in one this is the perfect tool for cleaning upholstery as well as hard surfaces and narrow spaces. The mini crevice is perfect when cleaning textile furniture such as sofas.

Reference: ZE 063

Part Number: 9001660829

### Mini Combi Brush

Ø 32/35 mm (adapter)

#### A 2-in-1 brush for quick cleaning of small surfaces!

This small nozzle can be used as a dusting brush on one side, and as a crevice nozzle on the other making it perfect for upholstery and hard surfaces.

Reference: ZE 030N

Part Number: 9001956540

### Textile Turbo

Ø 32/35 mm (adapter)

#### For horizontal and vertical cleaning!

This nozzle is ideal for removing difficult pet hair and fibres from furniture. It gives perfect results for deep cleaning of even thicker carpets. The multi directional cleaning enables horizontal and vertical cleaning. Perfect for carpets, upholstery, stairs, pillows, car interiors and more.

Reference: ZE 060.1

Part Number: 9001661330

## Top performance AeroPro nozzles

### Perfect fit for maximum performance!

Each AeroPro nozzle has an AeroPro Ø 36mm oval connection and is designed to fit perfectly with the top performance Electrolux vacuum cleaners. The interlocking system ensures maximum suction power without leakage and assists the convenient changing of nozzle.

### AeroPro™ Combi

Ø AeroPro oval 36 mm (adapter)

#### Excellent for all floor types!

The innovative nozzle allows for easy cleaning and manoeuvrability. The unique design of soft transparent wheels reduce the noise levels and increases the smoothness and manoeuvrability. The side angled brushes enables you to reach into corners whilst retaining maximum dirt pick up and performance. The pedal allows smooth control for different surfaces. And the Protective front rubber bumper provides with extended silence and protect your walls from scratches.

Reference: ZE 064

Part Number: 9001667527

### AeroPro™ Silent

Ø AeroPro oval 36 mm (adapter)

#### Powerful cleaning at a lower noise level!

Efficient silent floor nozzle aerodynamically designed to ensure continuous powerful suction for outstanding cleaning performance. The nozzle is optimized for powerful cleaning of different surfaces.

Sharper edges for better dust pick-up and lower noise on carpet.

Reference: ZE 057

Part Number: 9001671297

### AeroPro™ Extreme

Ø AeroPro oval 36 mm (adapter)

#### For powerful cleaning!

This nozzle is specially designed for powerful cleaning of different surfaces, with edges developed for better dust pick-up.

Reference: ZE 058

Part Number: 9001671719

### AeroPro™ Turbo Brush

Ø AeroPro oval 36 mm (adapter)

#### For even cleaner carpets!

The rotating brush on the Turbo Brush is specially designed to remove even the most deeply embedded dirt. Extremely powerful turbine driven and clever brushes that reach deep into the carpet. It achieves a gentle brushing action that does not destroy your rug. Compatible with UltraOne, NEW UltraSilencer and UltraActive!

Reference: ZE 014

Part Number: 9001969451

## AeroPro™ Silent Parketto

Ø AeroPro oval 36 mm (adapter)

### For hard floors!

Soft and silent nozzle for gentle cleaning of hard floors. The nozzle has a robust design to perform on all surfaces with no adjustments. It is extra wide for maximum performance.

Compatible with UltraOne, NEW UltraSilencer and UltraActive!

Reference: ZE 066

Part Number: 9001662106

## Small combination AeroPro nozzles

### 3-in-1 AeroPro™

Ø AeroPro oval 36 mm (adapter)

### Great for all surfaces!

This nozzle is the perfect tool for cleaning upholstery as well as hard surfaces such as bookshelves or tables and narrow spaces such as behind radiators. The mini crevice is perfect when cleaning textile furniture such as sofas.

Reference: ZE 067

Part Number: 9001670745

### Mini Turbo Brush

Ø AeroPro oval 36 mm (adapter))

photo to be updated

Air driven mini turbo brush ideal for removing difficult dust from furniture and clothes.

Reference: ZE 075

Part Number: 9001672949

### Adapter

Ø AeroPro oval 36 and 32mm (adapter)

### Adapter for 36 mm AeroPro, to fit 32 mm connection

This adapter is specially designed to allow owners of ELECTROLUX vacuum cleaners with AeroPro™ or Max-In oval 36 mm diameter tube to connect all 32 mm diameter ELECTROLUX accessories such as the SpeedyClean, DustMagnet, AnimalKit, AutoKit, the 3 in 1 nozzle, the TextileTurbo nozzle...

The adapter can be used with ELECTROLUX vacuums cleaners Twin Clean, Oxy3System, Oxygen+, UltraOne, UltraActive, new UltraSilencer, UltraOneMini and UltraPerformer.

Reference: ZE 050

Part Number: 9001967166

## Nozzles for Max-In cleaners

The cleaners in the Twin clean, Oxy<sup>3</sup>system and Oxygen+ series have been equipped with an innovative connection (Max-In oval 36 mm) which allows a better airflow. The following accessories will fit these cleaners perfectly and the adapter will enable you to use any other 32 mm accessories.

### Parketto Nozzle

Ø Max-In oval 36 mm

#### **An extra large brush for hard floors!**

This 36 cm wide nozzle will ensure a fast and perfect cleaning of tiles, wooden floor, linoleum, marble, etc.

Reference: ZE 016

Part Number: 9001969923

### Active Pick-up System

Ø Max-In oval 36 mm

#### **Adapts automatically to different floor types!**

This innovative nozzle offers an instantly visible dust pick up: one stroke is enough. Thanks to the automatic adjustment between carpets and hard floor and improved suction, it gives the best performance on all kind of floors. Its low height offers a better accessibility and its low weight makes handling easy.

Reference: ZE 019

Part Number: 9001966267

## Innovative accessories

It is not easy to dust on top of high cupboards, between the keys of your computer, or plants. Electrolux has designed a selection of innovative accessories to cater for your every need. Whether you want to clean your car, are a pet-lover, or are fighting allergies, you will find the right attachment to easily keep your home free of dust. These kits can be adapted to any vacuum cleaner with diameter 32 mm (and often 35 mm as well) except those with infra-red system.

### Auto Kit

Ø 32/35 mm (adapter)

#### Ideal for car cleaning!

No need of an industrial vacuum cleaner to clean the car, just use this car kit for a thorough cleaning.

The kit contains 4 very useful tools for perfect results:

1 microfibre cloth – for perfect cleaning of plastic parts and windscreens

1 mini textile turbo – to remove difficult fibres from car seats with vertical and horizontal cleaning

1 flat crevice and long crevice nozzle – for efficient cleaning in confined and hard to reach places such as underneath and in between car seats

Reference: KIT 09

Part Number: 9001661876

### Animal Kit

Ø 32/35 mm (adapter)

#### For animal lovers!

This animal kit is ideal to clean all kind of covering: carpets, curtains, upholstery and parquets, linoleum, tiled floor.

It consists of 2 convenient and efficient accessories :

1 wide crevice nozzle - to remove pet hairs from curtains, stairs & confined spaces

1 plush plate brush - for highly efficient removal of pet hairs from upholstery

Reference: KIT 03B

Part Number: 9001664524

### Easy Clean

Ø 32/35 mm (adapter)

#### Ideal for a quick dusting and convenient in house cleaning!

Dusting was never so easy as with the Easy Clean. The rotating duster attachment uses static electricity to attract and then vacuum up the dust. When the valve is open, air flows into the transparent container. The Easy Clean rotates and gets charged with static electricity - which improves the dust pick-up performance. It quickly gets cleaned and ready for use. The Easy Clean is made of long, very soft bristles and is especially useful for dusting hard-to-reach places and fragile objects like fixtures, plants, porcelain, computers, etc. Does not fit cleaners with infra-red system.

Reference: KIT 04N

Part Number: 9001956573

## Hobby Nozzle

Ø 32/35 mm (adapter)

### Ideal to avoid dust while drilling!

Few activities create more dust and debris than drilling. But insert the drill through this nozzle and the dust is immediately sucked up into the cleaner. The Hobby nozzle will adhere automatically to the surface thanks to the suction power of the cleaner.

Reference: ZE 032

Part Number: 9001956607

## Heavy Duty Separator

Ø 32/35 mm (adapter)

### Perfect for outdoor & garage cleaning!

When vacuuming sawdust or other larger particles, you may want to use this conical plastic container. It captures big dust particles and prevents them from entering the vacuum cleaner itself. Because it's transparent, it's also easy to see when emptying is needed. Does not fit cleaners with infra-red system.

Reference: ZE 001N

Part Number: 9001956508

## Tool Caddy

Ø 32 mm (adapter)

### Everything at hand!

This convenient container fits onto the bent end piece and holds dusting brush, crevice nozzle and upholstery nozzle.

Reference: ZE 031

Part Number: 9000846981

## BIGDIRT™ Separator

Fits most vacuum cleaners

### For rough cleaning!

BIGDIRT Separator allows you to vacuum cold ashes in your fireplace, grills, liquids (less than 5L, not hazardous or flammable ones) and other wet substances, as well as soil, glass shards, bits of stone, and cement dust. You can even clear floor drains of minor obstructions and defrost your freezer or clean your car. As it is corrosion treated, it is easy to clean. BIGDIRT fits most vacuum cleaners.

Capacity: 20L for solids, 5L for liquids.

Extra foam filter available, reference EF122.

Reference: ZE 003

Part Number: 9001670661

### BIGDIRT™ Accessory

2 replacement washable polyuretan foam filters for BIGDIRT™

Reference: EF122

Part Number: 9001671198

## Innovative accessories - for specific cleaners

### CarKit for New Rapido & Ergorapido

Special kit for cleaning the car with New Rapido and Ergorapido cleaner. This kit is perfect for narrow and hard to reach spaces as well for more delicate surfaces.

1 hose - for narrow & hard to reach spaces. The swivel functions in both ends ensure ease of use.

1 crevice nozzle - for hard to reach places.

1 pet nozzle - designed for maximum pickup of hair and fibers, ideal for use on soft fabric surfaces.

1 snap on bristle brush: soft bristles made to care for more delicate surfaces.

1 ErgoRapido adapter - ensures you can use the kit also for the new generation of ErgoRapido.

Reference: KIT 10

Part Number: 9001671685

### Pet nozzle for New Rapido & Ergorapido

The pet nozzle is designed for maximum pickup of hair and fibers and the shape makes it ideal for use on soft fabric surfaces. The nozzle can be used with the new generation Rapido with or without the hose. If you want to use them with new generation ErgoRapido just add the ErgoRapido adapter to the equation.
